Customer Churn & Segmentation Dashboard

▼ **Description**

Develop a customer churn and segmentation dashboard that enables stakeholders to monitor customer retention, analyze churn drivers, and support retention decision-making.

The solution will provide customer segmentation insights, churn metrics, trend analysis, filtering capabilities, and customer-level reporting to improve retention planning and business performance.

Business Objectives:

- Improve visibility into customer retention trends.
- Identify customer segments at risk of churn.
- Support data-driven retention strategies.
- Reduce reliance on manual reporting.
